Nebraska Commission for the Deaf and Hard of Hearing Announces Leadership Transition

The Nebraska Commission for the Deaf and Hard of Hearing (NCDHH) announces that Kyle Miers has resigned as Executive Director, effective Friday, December 5, 2025.

During his time with the agency, Kyle's leadership helped move several important discussions forward and supported relationship-building across the state. We appreciate his contributions and wish him continued success in his future endeavors.

Interim Leadership Appointment

The NCDHH Board of Commissioners has appointed Kim Davis as Interim Executive Director, effective immediately.

Davis previously served as NCDHH's Community Services Manager and brings deep institutional knowledge and experience to this role. She has served the Commission in multiple capacities and has prior experience providing interim leadership within the agency. The Board believes Davis is well positioned to support continuity and stability during this transition.

"Davis' appointment is effective until the NCDHH Executive Board fills the Executive Director position following an intensive search," said John Culver, Chairman of the NCDHH Board of Commissioners.

Next Steps for the Commission

Commission operations, programs, and services will continue without interruption. NCDHH staff remain focused on supporting Nebraskans who are Deaf, DeafBlind, or Hard of Hearing and on advancing the agency's strategic priorities already in motion.

Updates regarding the Executive Director search will be shared when available.

Commitment to the Community

NCDHH's mission remains unchanged: to expand communication access, strengthen community partnerships, and support Nebraskans across the state. The Commission will continue working closely with community members, partner organizations, state agencies, and stakeholders to ensure continuity, stability, and forward momentum.
