How CaptionCall Works

CaptionCall is similar to captioned television, using cutting-edge technology to display written, nearly instant captions. Here's how it works:

- 1** You hear your caller's voice over a standard phone line.
- 2** The CaptionCall Phone sends their voice to the CaptionCall Service, which quickly converts spoken words to caption text.
- 3** The text is displayed on the screen of the CaptionCall Phone.

Basic Requirements for CaptionCall

To get started with CaptionCall, all you need is:

- A high-speed internet connection
- Standard home phone connection
- Ordinary home electrical outlet
